THE COMPANY

Sans Key Technologies (I) Pvt Ltd

Sans Key Technologies (I) Pvt Ltd is proud to present itself as a one-stop shop for all your security needs & thus provide peace of mind, while protecting your loved ones and your investments even in your absence.

We are the business partner for Assa Abloy Global Solutions, the World Leader in Door Opening Solutions and Hardware.

We are committed to offering advanced security products such as Electronic Locks, In-Room Safes, Electrical Switches & Guest Room Management System, Security & Surveillance System, Access Control System, Networking, Fire Alarm, PA system, Barricades & Bollards etc.

Our extensive sales/service network covers the whole of South India.

Security Simplified!.

HOME AUTOMATION

It involves the control and automation of lighting, heating, ventilation, air conditioning, (HVAC), and security, as well as home appliances such as washer/dryers, ovens or refrigerators/freezers. Remote monitoring and control of lights, home appliances etc can be done through Wi-Fi.

BOOM BARRIERS, BOLLARDS AND GATE AUTOMATION

The system can be quickly and easily operated. It is suitable for both security and access control applications. The system is designed to withstand impacts and still operate, thus giving high security levels to all sites. We have different solutions to cater to university campuses, pedestrian walkways, parking lots, government buildings, sports stadiums, amusement parks, airports, shopping centers, hospitals, and apartment complexes.

ACCESS CONTROLLER, VISITOR MANAGEMENT AND ATTENDANCE SYSTEMS

Access control systems perform authorization, identification, authentication, access approval, and accountability of entities through login credentials including passwords, Personal Identification Numbers (PINs) biometric scans, and physical or electronic keys and mobile access.

CCTV

We provide all types and makes of CCTV cameras, which are easy and flexible to operate and provide excellent clarity. We also have decentralised IP cameras equipped with megapixel sensors, support recording directly to network-attached storage devices or internal flash for stand-alone operation.

VIDEO DOOR PHONE SYSTEMS

See who's there at the Front Door

This is a stand-alone intercom system used to manage communication between a visitor at the entrance of a building (residential complex, detached family home, workplace, etc.) and its resident.

Using a video door phone, residents and visitors can communicate audiovisually. Video door entry is notable because it enables a resident to identify visitors before granting them access.

PUBLIC ADDRESS, EPABX & NETWORKING SYSTEMS

We provide high quality audio solutions for your needs with microphones, amplifiers, loudspeakers, and related equipment. It increases the apparent volume (loudness) of a human voice, musical instrument, or any other source of sound.

We are also able to provide Networking solutions for commercial, residential & industrial requirements based upon the need of the client.

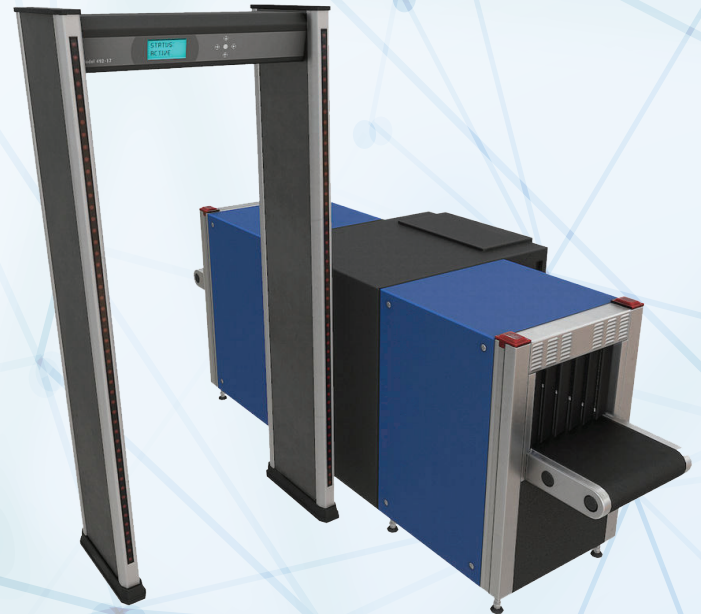

METAL DETECTOR AND X RAY BAGGAGE SCANNER

We offer well-designed and premium quality Scanners and Detectors manufactured using class-leading material and the latest technology. Our Products

Hand-held Metal Detector
Walk-Through Metal Detectors
Vehicle Underbody Scanner
Door Frame Metal Detectors

FIRE ALARM SYSTEMS

We offer an exclusive range of systems which are easy to install, detect & prevent fire with higher efficiency.

We have a broad range of products like:

Addressable Systems
Conventional Fire Systems
Gas Suppression Systems
Public Address System
Fireman Telephone System

Each and every device in our systems is installed carefully by adhering to the following aims: durability & instant detection of smoke and fire.

We are the distributor for:

ASSA ABLOY Global Solutions - for VingCard Electronic Door Locks, Elsafes (In-Room Safes) and Minibars.

ASSA ABLOY Hardware & Accessories - Assa Abloy are at the forefront of mechanical locking development. We offer a complete range of mechanical products to suit a variety of different applications.

Spintly – World's first fully wireless access control system on a cloud-based platform.

We provide Electronic Security Solutions for all sectors. We undertake complete automation for both commercial and domestic sectors.

We also undertake contractual maintenance of commercial kitchens.
